

## MAYOR MURPHY EXTENDS WELCOME

At Reunion of 26th Regiment, Connecticut Volunteers—51st Annual Reunion Well Attended at Buckingham Memorial—Mortuary List of Ten in the Year—President John S. Nolan Re-elected.

A red letter day in the annals of the Twenty-sixth Connecticut Volunteers the 21st of August is always, and so it came about that on Friday there was a glorious gathering of the veterans, their 51st, at the Buckingham Memorial with a rather large representation of the regimental association in spite of the weather conditions that mean more than half a century ago when they were subjected to the evening dews and damps of the southern battlefields. Yet those who could get there were just as spirited and enthusiastic and the ardor of the occasion was not diminished by rain or other inclemencies. It was a time for reminiscences and renewal of friendships and as such the hours of the reunion were enjoyed to the full. Acting-President John D. Nolan, of New London called the meeting to order with the statement that he was thankful he had lived to see another reunion, Loyalty, fraternity and charity he said are things to keep a man young and make his last days his best days.

**Corresponding Secretary Married.**  
Secretary N. Douglas Sevin of this city presented his interesting report, which showed that 60 members attended a year ago. He reported that Benjamin F. Gates, the former corresponding secretary, had taken unto himself a wife since the last reunion and has left New London to make his home in Baltimore, thereupon resigning his office. Consequently Mr. Sevin had to perform the duties of that office and has been admirably sending out notices of the reunion and making other arrangements.

**Treasurer Sevin's Report.**  
In his report as treasurer Mr. Sevin stated that he started the year with \$173.79 and that after paying for the reunion badges and other things on the expense side and receiving collections and interest on the credit, he had a balance of \$161.65. The monument fund now amounts to \$346.54.

**Mortuary List.**  
This mortuary list of ten in the year was read by the secretary, indicating the companies to which the deceased belonged:  
—Judith L. Witter, died in West Woodstock, Sept. 25, 1906, aged 74.  
—Thomas H. Brown, died in Stonington, April 22, 1913, aged 73.  
—Oramel Rathbone.  
—Michael Hopkins, died in Jewett City on July 12, 1913, aged 76.  
—Oland N. Rogers, died in California, December 1912.  
—First Lieut. Henry Austin Smith, died in Norwich on Sept. 16, 1913, aged 79.  
—George W. Kingsley, died in Norwich on Oct. 4, 1913, aged 76.  
—Guth L. Peck, died in Norwich, June 4, 1914, aged 85.  
—Samuel Tillinghast, died in Stonington on July 1, 1914, aged 83.  
—Fred A. Banta, died in Black Hall, on July 15, 1914.

**C. J. BALDWIN'S HOUSE STRUCK BY LIGHTNING**  
Came in by Telephone Wire—Two Trolley Cars Burned Out.

On Friday afternoon the weather repeated its performance of the day before by furnishing a sudden thunder shower about 2 o'clock with rain in torrents for a short time, followed by intermittent showers for the rest of the afternoon and evening. No damage of serious nature from either rain or lightning was reported, but there were some unpleasant accompaniments of the storm.

Lightning struck the house of Charles J. Baldwin, of the rear of No. 181 Maple street, coming down the side of the house and in by the telephone wire. All this telephone line was burned out and the electricity also shot over from the house into the light bulb which was hanging over an automobile, but did not damage the car, nor set the barn or house on fire. It was said by a man who saw the bolt that it also entered a pile of rocks at some distance away from the house and barn sending out a shower of sparks that exceeded any Fourth of July celebration ever dreamed of.

The trolley company suffered by having two cars struck by lightning, one at Jewett City at 3:09 o'clock and the other at South Windham at 3:49. Both were burned out and other cars had to be sent out to take their places on the runs.  
In Franklin street between Willow and Bath the gutter on the southern side of the street carried a big volume of water spread in a thin sheet almost out to the trolley tracks, and when it reached Bath street in its downward flow spread out a couple of inches deep across from curb to curb. Brought down by the storm a large limb fell about 6 o'clock with a loud crash from a tree of No. 55 Franklin street. Pieces from the limb broke through a skylight and came into the building occupied for storage by A. Bruckner, dealer in second hand furniture. The building is owned by W. H. Oat.

A colored man who was nearby and heard the crash declared that he was so scared he "turned as white as a sheet."  
The city electric light plant had trouble on some circuits in different parts of the city, but none at the station on North Main street.  
The telephone company also escaped both on Thursday and Friday with a minimum amount of trouble, but what there was made a good number of calls for the repair men in the city and surrounding country.

Calgary has 50 miles of municipally-operated street railway tracks.

**Children Cry FOR FLETCHER'S CASTORIA**

### Letters From Several Comrades.

Interesting letters were read from William F. Eccleston, ex-president of the association, who is now in Cleveland, from George H. Fuller of Wichita, Kansas, and from Comrade Briggs of Columbia.

Comrades Packer, Beckwith and Haskell were named a committee by President Nolan to bring in a list of officers for the coming year.

In the interim Mayor Murphy was presented and he brought a warm welcome to the veterans from the city of Norwich. He conveyed to them the sense of appreciation of their heroic history which still inspires the breasts of their descendants.

### Officers Elected.

Comrades G. A. Hammond of Putnam, George Brayton of Stonington, L. O. Smith of this city, were among those who brought back the old days before the nominating committee came in with this list of officers who were duly elected:

President—John S. Nolan, of New London.

Vice President—Robert B. Gordon of Lyme; Horace A. Burdick, of North Stonington; A. Conklin of Danbury; Chaplain—Rev. H. G. Gay of Reading, Mass.

Secretary and Treasurer—N. Douglas Sevin of Norwich.  
Corresponding Secretary—Beriah B. Champlin of New Haven.

Mr. Sevin was thanked for his services in the past year.

Comrade L. O. Smith, appointed by the president to take the collection, gathered \$8.25 from the veterans.

Then Charles Patterson of Carolina spoke of the dead European war and prayed for speedy peace and W. F. Gates of Lebanon, paid a glowing tribute to the regiment, which he said, lacks self-assertiveness, for it did just as much as any regiment, and lost as many men by war and pestilence as any of them. It is a regret to be proud of and its praises should be sung.

Comrade Patterson urged that the deaths of the veterans be put in the National Tribune and he said he would pay for it.

President Nolan recounted his experience of meeting Lincoln and his secretary Seward, on the field after the first battle of Bull Run. The president took off his hat and urged the soldiers to keep steadfast in spite of defeat then sustained. God raised such a man for that time and he stood boldly to this work. In the Civil war a Confederate soldier said if the southern soldiers knew the northern men were so good there would be less southerners in the army. He told of the capture of an American flag in the war and afterwards seeing what was left of it on a battlefield day in Hartford.  
Vine S. Stetson, said he got out of a sick bed to greet his old comrades and it did him good to see them. He was applauded for his display of spirit. Then the singing of "America" followed and proceeded to enjoy the fine spread served by the Woman's Relief Corps. A social time followed the dinner.

### STORM WAS SEVERE IN NEW YORK CITY.

One Death Occurred in Panic Among 2,000 Bathers—Four Lives Lost.

New York, Aug. 21.—For nearly half an hour this afternoon New York was dark as night while it was visited by one of the worst electrical storms in its history. One death in a panic among 2,000 bathers in a pavilion struck by lightning, and injury to seven persons caused by the downpour of a spectacular Broadway runaway sums up the known casualties from the storm. It brought relief from the intense heat, the temperature dropping from 87 to 77 degrees.

At 3:30 o'clock the northwest winds had marshalled clouds of inky darkness causing lightning to strike in the street cars, elevated trains, office buildings and homes. An instant later came flashes of lightning and rattle of thunder by the thousands. The wind blew fifty miles an hour. The local weather bureau said that since its establishment no storm had plunged New York into such intense darkness.

Louis Sen, a Chinese farmer was killed by a bolt while working in a field. Late in the evening other Chinese members of the colony ran in terror.

Warning of the storm's approach sent 2,000 bathers into a panic in Brighton Beach a few minutes before lightning struck the place, putting the lighting apparatus out of condition. Some cried "Fire" and in the result in the rush many women fainted. The driver of a delivery wagon lost control when the horse took fright at a clap of lightning and galloped and dashed through scurrying throngs, several blocks down Broadway to Astor place, leaving in its wake seven more or less seriously injured.

Before the storm a baby girl died from the heat in the arms of her mother in Brooklyn while she was taking her to physician. In all five persons lost their lives.

### BRITISH FLEET AT ESQUIMAULT STATION.

Has Been Increased By Two Ships—One Is Said To Be French Cruiser.

Victoria, Aug. 21.—The British fleet at the Esquimault Naval station has been increased by two ships, regarding which naval officials are maintaining the greatest reticence. The fleet now consists of three cruisers, two sloops of war and two submarines.  
Current belief is that one of the new arrivals is the Australian Cruiser Newcastle, and rumor has it that the other is the French Cruiser Montcalm.  
Newspapers here are under orders to print nothing regarding British ships or their movements.

Within the last four days the French Cruiser Montcalm has been variously reported as off San Diego, Calif., the west coast of South America, the British Columbian coast and in Asiatic waters.

### John E. Lamb Critically Ill.

Terre Haute, Ind., Aug. 21.—John E. Lamb, frequently mentioned as the choice of President Wilson for the Mexican ambassadorship when diplomatic relations are established again, is critically ill at his home here. He suffered a nervous collapse several weeks ago and his health has rapidly declined. Early today it was reported that he was dying. He gained, however, during the day.

### Some Will Be Disappointed.

With both sides in the war clinging on heaven for help, it is reasonably certain that somebody is going to be badly disappointed.—Kansas City Star.

Two yards Embroidered Band for 35c

Camisole Lace, a yard. 35c

Three yards Corset Cover Embroidery for 35c

The Reid & Hughes Co

### Political Gossip

Prof. Fisher's leading idea seems to be that the railroad influence in politics must be broken up, and strange as this sounds to many inhabitants of the state of New York, New Haven and Hartford, he is absolutely right. The railroad has got to get out of politics, and J. Henry Horaback, Charles Comstock, Col. Bob Eaton and all the others who have been running and oiling the party machines have got to go. One man like Prof. Fisher going up and down this state telling the truth about the political conditions is enough to break them. He may be talking old stuff, but if the voters once get the idea that he is in earnest, they will believe Prof. Fisher's sincerity can be successfully attacked in any part of the state where he is known, and he will soon be known in every part of the state. He seems to have set himself a big job, but he likes it, and that makes it much easier.—Waterbury Republican.

### Would Help Some.

A good deal might be done toward

eliminating any deficit if all the congressmen were to follow the example of Mr. Whittier, of Mississippi, and return to the government the salary they have not earned.—Indianapolis News.

The next question will be as to whether the ultimate consumer as well as the producer is to share in the benefit of the bumper crops.—Milwaukee Evening Wisconsin.
